

Privacy Policy for GAP Flasher App by GAP Innovation

This application doesn't export nor share any personal data automatically with the exception of log backups for usage by the user. The debug file can only be shared by the user and is only used for bug fix or improvement purposes by the developer. Information can be shared by the user and used by GAP Innovation or third parties which are known to the user since required for providing a paid service. Information can be shared by the user to other users via the share functionality.

Location service is requested only to allow Bluetooth communication while the App is in background thus no location information is collected, used nor shared.
